***Allowable Subject Matter***

1. Claims 12-27, 35, 39-58 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Korff (4,323,337) et al disclose a compression bellling apparatus for bellling a plurality of plastic pipe ends, comprising a heating station (24) with a plurality of radiant electrical heating elements arrayed above the pipes and a reflector located below the pipe to enhance the heating of those pipes (col. 5, lines 1-10), a comprising flare forming station, or the bellling station (38) includes a pair of clamping/grasping elements (70a-b), a mandrel (72) and corresponding molds (40) with upper mold halves (40a) and lower mold halves (40b) for forming a bell at an end of the plastic pipe.

However, Korff et al fail to disclose that the heater having a contact heating structure with a heating surface.

In regard to Emery (3,923,443), the heating system is heated by an air flow and avoid direct contact with the bellling pipe. Thus, Emery would also fail to disclose a heater having a direct contact surface, as the applicant pointed out under the Remark section, page 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
